Professor Hanna Kurniawati

SmartSat CRC Chair in System Autonomy, Intelligence and Decision Making
Australian National University

Hanna Kurniawati is a Professor in the ANU School of Computing and holds the SmartSat CRC Professorial Chair for System Autonomy, Intelligence & Decision - Making.

Hanna's research spans robotics, sequential decision-making (planning) under uncertainty, motion planning, computational geometry applications, integrated planning and learning, and reinforcement learning. Hanna's works have received multiple awards, inclu ding the Robotics: Science and Systems 2021 Test of Time Award. She is a Senior Editor of IEEE TRO, was a Senior Editor of IEEE RAL for Planning and Simulation area and a PC Cochair for ICRA'22.
